Jr Council

We just reorganized for the new 2018 - 2019 year. We have a group of fantastic youth! They are Jacob Gunnell, Katelyn Hansen, Berlin Hoth, Conner Jenson, Erin Nielsen, Mason Peery, Spencer Sanders, Chelsey Strong, Annalee Tueller, Logan Webber, & Nora Wosnik. Our advisors for this year are Christa Wosnik, Debbie Wosnik, & Stephanie Allred.

We enjoyed throwing candy at everyone at the parade and running the dunk tank at the celebration afterwards. Thanks to everyone who came out and threw some balls or got dunked.

We are excited for the year ahead. Our motto is "Serving others, one by one."

We hope you got to witness our Good Neighbor Award before the fireworks. We were excited to present John & Marilyn Brady as our winning good neighbors! John and Marilyn have a lifetime of serving others and their influence has extended far and wide. Even when they have had needs of their own they could be found reaching out to others. Most people around them have received wonderful cinnamon rolls and/or a happy birthday wish and song. John and Marilyn have a way of making everyone feel like they are the most important people to them. Their love and service has made Hyde Park a better place to live! Congratulations John & Marilyn! We loved surprising you.

Do you have a neighbor that you would like to tell on? We would love to surprise them with a thank you. Please let us know at HPGoodNeighbor@gmail.com or drop us a note to the city office. Thanks in advance!
Message From Mayor Flint

Have you noticed anything different going on in our city? Have you seen two of our burly public works guys stuffed into a golf cart popping up hither and yon or even in your yard? Has it crossed your mind to wonder what they are up to? And why the golf cart? Why are they poking around in your yard, and what the heck is that long pole that they are hauling everywhere with them? All these mysteries are explained in this article.

As you know, the city has ownership of many miles of pipe, hundreds of hydrants, dozens of signs, and grundles of valves, meters, manhole covers, etc. How do we keep track of and maintain all of this stuff, plus our roads and sidewalks? Well up until this year we relied upon the vast amount of knowledge stored in Mike Grunig’s amazing brain. Unfortunately, brains and people don’t last forever, and Mike will be retiring at some point so now we have to rely on technology. Fortunately, we have access to some pretty good tech, which will hardly take his place, but it’s the best we can do.

Kolby and Justin, those burly guys in the golf cart, are traveling every inch of our city using that long pole with an antenna on it, to GPS all our stuff. Every bit of those hundreds, grundles, miles, and dozens of items goes into a data base, along with pictures, dates, descriptions, or any other relevant info, and is stored and updated as necessary. As you can imagine, this is an ongoing project that will take a fair amount of time to finish, but thanks to the golf cart and the diligence of Kolby and Justin, it is going much faster than expected. And yes, it will really never be finished because of growth and repairs, but we are hoping to have all the existing infrastructure done by the end of this year.

Why? you may be asking yourself? I like to compare it to home ownership. As an owner, you may be content to live in your home and let it quietly crumble around you, thinking that when you die or sell, the next owner can deal with it. Or, you may repair and update and paint and improve, and when you die or sell, your house is worth much more. The same with a city. We want to repair, update, paint, improve and have our city worth much more. We plan on using this information to analyze, and possibly replace, older items and hopefully lessen the chances of failure before it happens. And the recurring mystery of where a certain valve, pipe, or meter are located, will never happen again.

Now wasn’t that nice to get all those mysteries cleared up? If only all the other mysteries of life were that easy to explain.....

Pioneer Day

We wanted to say thank you to all who participated in our many activities and anyone who helped with putting this event together. We had a great turnout and a great event! Email Jesse@northlogancity.org for any suggestions for next year to make it even better!

New Recreation Software!

At the end of August we are going to be getting new recreation software called civic plus. When the switch is made we will need you to create a new account. We would like to encourage you to put your whole family in the system because, when you choose a program it will highlight who is eligible for the program. You can also link it to your Facebook account to share with your friends that you signed up for a program. We will have the same website for signups it will look a little different but still easy to use.
