City Happenings

Message From Council Member Flint

Happy Easter all! It’s a new month, spring is here, and we live in a great city!

Today, I think it is time for a little civics’ lesson. Now don’t nod off, skip ahead, or allow this newsletter to slip from your suddenly nerveless fingers. This will be fascinating and relevant, I promise!

Have you ever wondered what form of government we have here in Hyde Park? A monarchy? A dynasty? Sometimes you may wonder, a tyranny? No, no and no. It is called the weak mayor system (no reflection on our current mayor). The mayor does not vote and has a limited ability to veto, but he does set the vision for the city, oversee the staff and represent the city at county, state, and national functions. But, you wonder, how does anything get done in the city? This is a point of pride for me and part of what makes our city so fabulous!

Every city council member is in charge of something in the city. We (hopefully) know exactly what goes on in our area of concern and we can (hopefully) speak knowledgeably about it to the other members of the council. In other cities this is not always the case and I think it helps us make better informed decisions. We don’t have a city manager who oversees the operation of the city, it is up to each of us on the city council. Perhaps now you are wondering who is in charge of what? Or you have wandered off to get a snack but, in either case, I will tell you.

Mark Hurd runs the city celebration (hurray!) and the Citizen’s Corps Committee. Brad Robinson is in charge of roads and liaisons with Planning and Zoning. Bret Randall manages our water and our sewer. Charles Wheeler plans our parks and trails. And I (Sharidean Flint) keep track of storm water and am on the police commission. We love our jobs and enjoy working together and are pretty proud of Hyde Park! Thanks for giving us the chance to serve!

Green Waste

The Logan City Environmental Department is pleased to announce the beginning of the 2017 green waste drop site and curbside green waste collection season.

The Hyde Park green waste containers have been delivered West of the City Shop on 3700 North. The containers are offered as a service to the Citizens of Hyde Park City. We ask that residents please not overfill the green waste drop site containers or leave materials on the ground outside of the containers as this creates difficulties when it comes time to haul the materials to the green waste facility. Containers are emptied nearly daily during the green waste season. If it’s full, please wait until the following day or take it to the Logan City Green Waste Facility.

Curbside green waste collection is underway. Please do not overfill your cans or place materials on the ground outside of your can. To sign up to have a green can at your home for an extra $4 a month, please call 435-716-9755.

We would like to remind residents that green waste cans and bins are designed for green waste materials only, including: grass, leaves, small branches, and general yard waste less than 4’ in length. No garbage, rocks, dirt or pet waste is allowed.

Green waste can be taken to the Logan City Green Waste Facility (200 N 1400 W) year round for no charge.

The 25th Street Market has opened vendor registration for this year's community and farmers' market. The Market will be held at the North Logan Library, each Saturday, 9 am - 1 pm, from June 3 to mid-October, with a special Mother's Day sale on May 13th. Early vendor registrants get a great discount. This year, Market organizers are offering a fabulous entrepreneurial business development series for vendors. If you have a product or produce to sell, the 25th Street Market is the place to be! The web site is www.northloganmarket.com, and we hope you'll register to join us for a fun summer at the Market!

Jr Council

Ready to find out who won the Good Neighbor Award for March? Congratulations to Scott Robinson! Scott goes about quietly doing good wherever he sees a need. After we received a letter nominating him, we kept hearing about all the different things he has done for people. The Jr Council surprised him as he was working in his shop on a project for the scouts - more service :) We presented him with a basket full of treats and prizes and sang to him too. Want to see our presentation to Scott? Check it out on our Facebook page: Hyde Park City Jr Council. Hyde Park is an amazing place to live and people like Scott make it even better. Thank you Scott for caring, serving, mentoring, and using your talents to bless others.

Do you have a neighbor that makes Hyde Park a better place? We need your nomination! Please send it to GoodNeighborAward@gmail.com

Message From Chief Hawkes

I wanted to take a minute and talk about riding off-highway vehicles. Throughout the summer we receive complaints about individuals riding four wheelers and motorcycles on private property or on public property that is restricted in use. Designated open space within subdivisions is often restricted to non-motorized vehicles. The simple rule is that if you do not own the property then you need to locate the owner or controlling agent and get permission to ride. You must obtain written permission and have it on your person while you are riding. Just because there are visible trails in the foothills does not mean there is open riding. Be considerate and get permission first, it’s the Law.
