It’s no secret who our Good Neighbor winner is. If you were at our firework show then you know it’s Sharidean Flint! We were excited to award our very deserving mayor for all the service and time that she gives our city. We’re sure that there is far more work for the mayor than we can imagine including lots of homework, reading and studying. Meetings, phone calls, thinking and pondering with everything always on her mind and then more studying. As the Youth Council we want to thank her for her efforts in making Hyde Park a great place to live. Sharidean is a wonderful mayor! Thank you mayor for everything you do!
We invite all of you to thank our mayor whenever you get a chance!

Is there a family or community member that serves our city or your neighborhood? Please nominate them for the Good Neighbor Award at HPGoodNeighbor@gmail.com

We have a brand new Youth Council and advisors. We hope you enjoyed the games before the fireworks and our carnival games after the parade. We had a blast tossing candy in the parade and also spraying some of you with water! We look forward to a fun year ahead.

Please mark your calendars for our water slide on August 24th from 12-2
Message From Mayor Flint

Attention everyone! It is time for a civics lesson once again. Wait! Wait! Don’t let your eyes glaze over and your mind wander. This affects every single one of you so pay attention. And yes this will be on your “final” exam. Bet you didn’t think civics was such an eternal principle did you? Just kidding. I am sure we will have much more important things to do during the eternities than discuss civics. Geometry? Social studies? Who knows? But here and now we have to deal with civics. So here we go.

Here in the office we have been having lots of conversations about rights of way. I can hear the “Huh?” now. That’s what a city buys or is given when a road is built. We are in the process of purchasing rights of way for the 600 South road but it also comes up periodically for other reasons.

We have a variety of right of way widths depending on where the road will be and how much traffic we are predicting for that road. I bet you didn’t know we can predict the future. Well we do it all the time. Whether we are correct or not is where the trouble comes. We look into the future and say this road will be very busy or this road will not be busy at all. Then the school district comes in and messes it all up by building a school. So you can see that we are not really that good at it. That doesn’t stop us though, we just keep on predicting, kind of like the weather man.

Now how, you are asking, does this affect me? Well you live on a right of way but, what you may not know, is that it isn’t just the road that you see. Each right of way generally starts on the property line and includes the sidewalk, park strip, and curb and gutter, if you have those. If you don’t, there is a certain amount of dirt off the asphalt that belongs to the city. So basically what I am saying is that what you think of as all of your property may not be, well, yours.

Sometimes we have roads put in that don’t use all of the right of way, reserving the rest for possible future growth. So heads up, if you plant trees or bushes or a lovely flower garden, and it is in the city right of way, we can come and tear it out and extend the road. I am sorry to say it, and even sorrier to do it, but it is our property after all. And by “our” I mean all of the citizens of Hyde Park and when you elect wise and honest citizens to represent you, you hope they predict the future correctly. So good luck to us!
