

## **Hazardous Waste Facilities are Operated by the Logan Landfill**

The Logan Landfill is a municipal Solid Waste Facility, which means no hazardous waste is allowed to enter the landfill. If you have any household hazardous waste in your home, please take it to the Logan Landfill and inform the Landfill Attendants on the materials you need to dispose of. There is no additional fee for these materials unless it is an untagged A/C or refrigeration unit (Freon still inside) or vehicle tires. Limit to 5 gallons per day, per customer.

<b><i>Item</i></b>	<b><i>Fees</i></b>
Car tire (15 inches or less)	\$2.00 per tire
Truck tire (15 inches to 20 inches)	\$5.00 per tire
Truck tire (20 inches to 25 inches)	\$10.00 per tire
Tractor tire (any tire over 25 inches)	\$100.00 per tire
Tire Rim	\$5.00 per rim
Asbestos	\$500.00/ton plus \$17.50/ton special handling fee
Untagged A/C or Refrigeration units (with Freon still inside)	\$30.00
Tagged A/C or Refrigeration units (with certificate of Freon removal)	FREE
All other materials considered Household Hazardous Waste	FREE

- Motor Oil
- Paint
- Paint thinner
- Pool & Spa Chemicals
- Propane Cylinders
- Television
- Tires
- Transmission fluid
- Any product with the words Caution, Warning, or Danger on the label

## **REUSE PROGRAM**

**REUSE**

The Household Hazardous Waste facility began its REUSE program March 23, 2009. Until recently, all household hazardous waste that came into the facility were either recycled or incinerated. Any Cache County resident aged 18 years and older can now come down to the facility located at the landfill and take (at no charge) certain unused or partially used household products that have been donated to the facility. Customers picking up products for reuse must fill out a liability waiver. We will be diverting items such as paint, pesticides, motor oil, spa chemicals and other household cleaners, etc. out of the waste stream to be used for the purpose intended instead of being so wasteful. The REUSE shed is open 8:00 am to 5:00 pm, Monday thru Saturday. Please call our Household Hazardous Waste Facility at 435-713-6686 for more information.

If you have household hazardous waste that you need to dispose of and think that it might be a good candidate for the REUSE shed, talk to the employees at the scale house and authorize the reuse of the products.
